

1st Place - Narae Y - Gallagher Elementary

Don't let cyber bullies push you around. Stand up for yourself, and be proud!

NEVER CYBER BULLY!

When a person sends you a mean message about you on the internet...

..It is called cyber bullying, especially when they do it more than once.

You should tell your parents as soon as you get a message from a cyber bully.

Someone gave me mean Emails!

I Hate You!
Hah? You're trash!

That way, your parents can inform the bully's parents about what happened, and then they can stop their child from cyber bullying.
